

We create (digital) SysEx files packed with patches for your vintage equipment.

Most synth and module owners merely rely on the factory presets, overlooking the instrument's complete potential. Many 'digital' synths have more waveforms onboard than what is used for the factory presets. And with all the internal waveforms and synth functions, a lot of variations can be made. Moreover, expanding these internal waveforms is possible with cards and expansion boards, further broadening the horizons of what can be achieved.

In the early days, with the Roland U-110 series and D-70, users had to delve into programming to make use of these waveforms.

Roland made a significant improvement by including an extensive collection of patches. However, even in this case, there is much more that can be accomplished due to the vast number of waves on those boards.

The PKN patches/SyxEx files are newly created, and programming commenced towards the end of 2019. Work began on the D-70 synth and extended over a considerable period of time, given the vast untapped potential waiting to be explored. Moreover, there were numerous discoveries to be made with this synth, as there was limited information available online.

For the other instruments we also searched the internet to see what had already been done and what synth banks were available, if any. Because our objective is to create new patches and unlock new possibilities with these instruments.

PKN sound banks/samples/PDF guides are available for the following synths and modules:

- [Roland D-70](#)
- [Roland JV-80](#)
- [Roland JV-XV](#)
- [Roland M-DC1](#)
- [Roland M-SE1](#)
- [Roland R-8](#)
- [Roland U-110](#)
- [Roland U-220](#)

For more details on the synth banks and prices, please visit [playkeyboardnow.com](https://playkeyboardnow.com)

# PKN SOUNDS for Roland D-70

PKN SysEx Banks for	Waveform/Card	What you need to buy this	
Roland D-70		Bank / Other details	
PKN-D-70-01 Drum Bank	Internal waveforms		
PKN-D-70-02 Drums 2	Card MV-30-01		
PKN-D-70-03 Latin and FX Percussion	Card SN-U110-02		
PKN-D-70-04 Factory Bank Expanded	Internal waveforms		
PKN-D-70-05 D-70 Collection	Internal waveforms		
PKN-D-70-06 D-70 Super Strings	Card SN-U110-13
